GH
augments androgen effects on skin 29
chromosomal abnormalities and 363
detection of doping in sports 43
effects of replacement in adults 439, 485
exercise, ageing and bone metabolism 223
haemoglobin levels during therapy 565
individualized dose titration 571
leptin and body composition in the elderly (Rapid communication) 161
leptin and (Letter) 502
potentiation of secretion by methionine 61
receptor expression on lymphocytes 329
regulation of acid-labile subunit in GHD 657
response, interactions of hexarelin and pyridostigmine 495
secretagogues in critical illness 599
secretion in NIDDM 471
therapy in mitochondrial encephalomyopathy (Case report) 113
therapy in normal short stature 261, (Commentary) 267
urinary, and GH sufficiency 447
GHD
acid-labile subunit in 657
effects of GH and androgens on skin 29
leptin in hypopituitarism (Rapid communication) 153
leptin levels and effects of GH therapy 191
GHRH
ectopic GHRH syndrome (Review) 123
GHRPs
interaction of hexarelin with somatostatin 537
Glioma
hypothalamic, and endocrine outcome 79

Glucocorticoid
replacement therapy (Letter) 251
Glucoregulatory disorders
in school refusal students 273
Glucose
dried blood spot analysis 679
GnRH
gonadotrophin response after ovariectomy 721
Goitre
BMD and L-thyroxine therapy 529
Graves' disease
bone metabolism in 215
clinical activity score in ophthalmopathy 9
(Commentary) 15
postoperative tetany 71
radioprotective effect of propylthiouracil 425

Haemoglobin
effect of GH replacement 565
Hexarelin
interaction with somatostatin 537
interactions with pyridostigmine 495
Hirsuties (Review) 255
HPA axis
assessment of 51
inhaled beclomethasone and 297
Hydrocephalus
with IFT and fibrosclerosis (Case report) 107
Hydrocortisone
replacement therapy 37
Hydroxysteroid dehydrogenase
assessment of activity 231
Hydroxytryptophan
LH secretion and 555
Hyperplasia
adrenal, ACTH-independent (Case report) 739
adrenal medullary (Case report) 613
Hyperprolactinaemia
detection of macroprolactin (Letter) 629
psychological distress and 343
Hyperthyroidism
bone mass in 279
Hypoadrenalism
with corticotrophic macroadenoma (Commentary) 269
Hypoglycaemia
dried blood spot analysis 679
Hypogonadism
melatonin levels in 463
in men with chronic illness (Review) 379
permeation-enhanced transdermal system 727
Hypophysectomy
assessment of HPA axis 51
Hypopituitarism
dose titration of replacement GH 571
hydrocortisone replacement therapy 37
leptin in (Rapid communication) 153
Hypothalamic adipsic syndrome (Endocrine management:
occasional review) 405
Hypothalamus
assessment of HPA axis 51
endocrine outcome and glioma 79
Hypothyroidism
congenital, effects on puberty and adult height 649
(Commentary) 655

IGF
availability of IGF-1 (Letter) 501
detection of doping with GH 43
IGF-I receptors in PCOS 185
physiological effects of IGF-I 685
regulation of acid-labile subunit in GHD 657
IGFBP
detection of doping with GH 43
physiological effects of IGF-I and insulin 685
Immune function
colonic polyps, acromegaly and 23
GH receptor expression on lymphocytes 329
Immunoblotting
acid-labile subunit 657
Insulin
gene expression in adult-onset nesidioblastosis (Case
report) 245
physiological effects 685
resistance, and cortisol 583
resistance, and PC-1 61
tolerance test after hypophysectomy 51
Insulinomas
occult pancreatic (Case report) 753
Interferon-alpha
iodine, thyroid function and 357
Iodine
intake, thyroid function and IFN-α 357
intake, and thyroid function in old age 87
radioactive, and Graves' disease 425
radioactive, and thyroid carcinoma 713

Kynurenine
seizures and 667

Leptin
GH and body composition in the elderly (Rapid
communication) 161

GH and (Letter) 502
in hypopituitarism (Rapid communication) 153
in normal and GH-deficient subjects 191
in obesity (Commentary) 169
in pregnancy and menstrual cycle (Rapid communication) 101
in puberty (Commentary) 175
testosterone and (Rapid communication) 237
LH
effects of L-hydroxytryptophan 555
response to GnRH 721
testosterone replacement and ageing 317
Lysine vasopressin
sensitivity, and AIMAH (Case report) 739

Melanoma
with ocular naevus in acromegaly (Case report) 119
Melatonin
secretion in hypogonadism 463
Men
effects of GH and androgens on skin 29
gonadal function in chronic illness (Review) 379
leptin and testosterone levels (Rapid communication) 237
Menopause
bone mass in hyperthyroidism 279
bone and total alkaline phosphatase activity 177
pituitary dysfunction and 431
Menstrual cycle
leptin in (Rapid communication) 101
Metabolism
bone, in Graves' disease 215
effects of amiodarone on sulphation 699
glucoregulatory disorders 273
protein, in mitochondrial encephalopathy (Case report) 113
tryptophan, and seizures 667
Methionine
potentiation of GH secretion 61
Methoxyindole
seizures and 667
Metyrapone test
postoperative, in Cushing's disease 145
Multiple endocrine neoplasia (MEN)
type 1, pituitary tumours and 507
type 1, recent advances (Commentary) 513
type 2, and metastatic parathyroid carcinoma (Case report) 747
type 2, and sporadic phaeochromocytomas 707
Myometrial contractions
progesterone, calcium channels and 349

Naevi
ocular, and melanoma in acromegaly (Case report) 119
Nesidioblastosis, adult-onset
insulin gene expression in (Case report) 245

Obesity
cortisol levels and insulin resistance 583
GH and leptin in the elderly (Rapid communication) 161
leptin and (Commentary) 169
Octreotide treatment
somatostatin receptor imaging and 589
Oestrogens
in cross-sex hormone treatment 337
Osteomalacia
oncogenic, and phosphate regulation (Review) 635
Osteoporosis
bone and total alkaline phosphatase activity 177
Ovariectomy
gonadotrophin response to GnRH 721

Pancreatic endocrine tumours
Rb gene and 523
regionalization of occult insulinomas (Case report) 753
Parathyroid carcinoma
in MEN2A syndrome (Case report) 747
PC-1
in insulin resistance 61
Persistent Mullerian duct syndrome (Clinical molecular endocrinology) 137
Phaeochromocytoma
unilateral adrenal medullary hyperplasia (Case report) 613
von Hippel-Lindau and RET genes and 707
Phosphate regulation
in oncogenic osteomalacia (Review) 635
Pituitary adenomas
corticotrophic macroadenoma with hypoadrenalism (Commentary) 269
$G\alpha_q$ in (Short communication) 241
GnRH receptor gene and 549
somatostatin receptor imaging 589
Pituitary function
assessment of HPA axis 51
menopause and 431
postoperative assessment in Cushing's disease 145 (Commentary) 151
Pituitary tumours
MEN 1 and 507
Polycystic ovary syndrome
(Commentary) 423

IGF-I receptors in 185
thecal cell function 93
Potassium
physiological effects of IGF-I and insulin 685
Pregnancy
leptin in (Rapid communication) 101
Progesterone
myometrial contractions and 349
Prolactin
detection of macroprolactin (Letter) 629
release in prolonged critical illness 599
Propylthiouracil
radioprotective effect 425
Psychological distress
in hyperprolactinaemia 343
Puberty
congenital hypothyroidism and 649
leptin in (Commentary) 175
Pyridostigmine
interactions with hexarelin 495

Quality of life
GH replacement in adults 439

Retinoblastoma
tumour suppressor gene 523
Riedel's struma
extracervical fibrosclerosis in (Case report) 107

Scintigraphy
somatostatin receptor imaging 589
Sertoli-Leydig cell tumour
with X chromosomal mosaicism (Case report) 619
Sheehan's syndrome
thyrotrophin levels in 515
Somatostatin
interaction with hexarelin 537
receptor imaging 589
Sulphate metabolism
effects of amiodarone 699

Testosterone
correlation with leptin and GH 191
implants in replacement therapy 311
leptin and (Rapid communication) 237
melatonin levels and 463
permeation-enhanced transdermal replacement 727
replacement, LH and ageing 317
Tetany
postoperative, in Graves' disease 71
Thecal cell function
in PCOS 93
Thyroid carcinoma
radioactive iodine and 713
Thyroid function
effects of amiodarone 699
endothelin in nodular pathology 479
interferon-alpha treatment and 357
old age and iodine intake 87
thyroid stimulation blocking antibodies 693
in very low birth weight infants 411
(Commentary) 419
Thyroiditis
invasive fibrous (Case report) 107
Thyrotrophin
release in prolonged critical illness 599
in Sheehan's syndrome 515
Thyroxine
BMD and non-toxic goitre 529
treatment of congenital hypothyroidism 649
(Commentary) 655
Thyroxine binding globulin
deficiency 1 (Commentary) 7
Transsexuals
cross-sex hormone treatment 337
Tryptophan metabolism
seizures and 667
TSH
collagen peptides in syndromes of inappropriate secretion 209
nocturnal peak, and IDDM 305
Turner's syndrome
bone mineral density in 367

Verapamil
myometrial contractions and 349
von Hippel-Lindau genes
phaeochromocytomas and 707

Women
BMD and L-thyroxine therapy 529
gonadotrophin response to GnRH after ovariectomy 721
hirsute (Review) 255
IGF-I receptors in PCOS 185
incidence of neoplasia in acromegaly 323
leptin in pregnancy and menstrual cycle (Rapid communication) 101
pituitary dysfunction and menopause 431
